

# Glossary of Abbreviations for: Integrating the Healthcare Enterprise (IHE) Healthcare Information Technology Standards Panel (HITSP)

www.ihe.net

## Integrating the Healthcare Enterprise (IHE) Definitions

<b>ACM</b>	Alarm Communication Management
<b>APR</b>	Antepartum Record
<b>ARPH</b>	Anatomic Pathology Reporting to Public Health
<b>ATNA</b>	Audit Trail and Note Authentication
<b>BPPC</b>	Basic Patient Privacy Consents
<b>CRD</b>	Clinical Research Data Capture
<b>CPI</b>	Consistent Presentation of Images
<b>CT</b>	Consistent Time
<b>DEC</b>	Device Enterprise Communication
<b>DSC</b>	Drug Safety Content Profile
<b>DSG</b>	Digital Signature
<b>DPI</b>	Device Point-of-Care Integration
<b>EDES</b>	Emergency Department Encounter Summary
<b>EDR</b>	Emergency Department Referral
<b>IC</b>	Immunization Content
<b>IDCO</b>	Implantable Device - Cardiac Observation
<b>LDR</b>	Labor and Delivery Record
<b>MEM</b>	Medical Equipment Management
<b>PDQ</b>	Patient Demographic Query
<b>PIV</b>	Point-of-Care Infusion Verification
<b>PIX</b>	Patient Identifier Cross Referencing (PIX)
<b>PWP</b>	Personnel White Pages
<b>QBD</b>	Query for Bulk Data
<b>QED</b>	Query for Existing Data
<b>RAD</b>	Radiology
<b>RFD</b>	Retrieve Form for Data Capture
<b>RPE</b>	Retrieve Protocol for Execution
<b>RTM</b>	Rosetta Terminology Mapping
<b>SVS</b>	Sharing Value Sets
<b>SWF</b>	Scheduled Workflow
<b>WCM</b>	Waveform Communication Management
<b>XCA</b>	Cross Community Access
<b>XD-LAB</b>	Sharing Laboratory Results
<b>XDM</b>	Cross-Enterprise Document Media Interchange
<b>XDR</b>	Cross-Enterprise Document Reliable Interchange
<b>XDS</b>	Cross Enterprise Document Sharing
<b>XDS-I</b>	Cross-Enterprise Document Sharing for Imaging
<b>XDS-MS</b>	Cross-Enterprise Document Sharing of Medical Summaries
<b>XDS-SD</b>	Cross-Enterprise Document Sharing of Scanned Documents
<b>XPHR</b>	Exchange of Personal Health Record Content
<b>XUA</b>	Cross Enterprise User Authentication
<b>DSUB [New Directions]</b>	Document Subscription
<b>HIEM</b>	Health Information Event Messaging - This is an NHIN specification, not a HITSP specification. It is similar to DSUB, and is the standard for all of the population FHA cross-overs. HITSP references DSUB within TP13.

## Healthcare Information Technology Standards Panel (HITSP) Definitions

- C19** Entity Identity Assertion Component
- C26** Nonrepudiation of Origin Component
- C32** Summary Documents Using HL7 Continuity of Care Document (CCD) Component
- C35** Lab Result Terminology Component
- C37** Lab Report Document Component
- C38** Patient Level Quality Data Document Using IHE Medical Summary (XDS-MS) Component
- C47** Resource Utilization Message Component
- C48** Encounter Document Using IHE Medical Summary (XDS-MS) Component
- C62** Unstructured Document Component
- C72** Immunization Message Component
- C74** Remote Monitoring Observation Document Component
- C76** Case Report Pre-Populate Component
- C78** Immunization Document Component
- C84** Consult and History & Physical Note Component
- C151** Clinical Research Document Component
  
- CAP 135** Retrieve and Populate Form Capability
  - T15** Collect and Communicate Security Audit Trail Transaction
  - T16** Consistent Time Transaction
  - T17** Secured Communication Channel Transaction
  - T23** Patient Demographics Query Transaction
  - T31** Document Reliable Interchange Transaction
  - T33** Transfer of Documents on Media Transaction
  - T40** Patient Generic Health Plan Eligibility Verification Transaction
  - T63** Emergency Message Distribution Element Transaction
  - T64** Identify Communication Recipients Transaction
  - T73** Aggregate Device Information Communication Transaction
  - T81** Retrieval of Medical Knowledge Transaction
  - T85** Administrative Transport to Health Plan Transaction
  
- TP13** Manage Sharing of Documents Transaction Package
- TP20** Access Control Transaction Package
- TP21** Query for Existing Data Transaction Package
- TP22** Patient ID Cross-Referencing Transaction Package
- TP30** Manage Consent Directives Transaction Package
- TP49** Sharing Radiology Results Transaction Package
- TP50** Retrieve Form for Data Capture Transaction Package
- TP89** Sharing Imaging Results Transaction Package
  
- IS01** Electronic Health Records Laboratory Results Reporting Interoperability Specification
- IS02** Biosurveillance Interoperability Specification
- IS03** Consumer Empowerment and Access to Clinical Information via Networks Interoperability Specification
- IS04** Emergency Responder EHR Interoperability Specification
- IS05** Consumer Empowerment and Access to Clinical Information via Media Interoperability Specification
- IS06** Quality Interoperability Specification
- IS07** Medication Management Interoperability Specification
- IS08** Personalized Healthcare Interoperability Specification
- IS09** Consultations and Transfers of Care Interoperability Specification
- IS10** Immunizations and Response Management Interoperability Specification
- IS11** Public Health Case Reporting Interoperability Specification
- IS12** Patient-Provider Secure Messaging Interoperability Specification
- IS77** Remote Monitoring Interoperability Specification
