

HIMSS12 Interoperability Showcase™

Call for Volunteers

Each year the HIMSS Interoperability Showcase™ draws thousands of people to the largest exhibit on the HIMSS Annual Exhibition floor! **The HIMSS12 Interoperability Showcase™** in collaboration with IHE will feature interoperability initiatives from the Office of the National Coordinator, the Care Connectivity Consortium, and the Health Story Project. The HIMSS12 Interoperability Showcase™ at the Venetian Sands Expo Center in Las Vegas, Nevada from February 20 – 23, 2012 will be the best yet and we need your help!

Would a leadership role at HIMSS12 complement your professional objectives?

You do not need to be an expert! We will provide all of the information you need to know.

Consider volunteering with the HIMSS12 Interoperability Showcase™ and receive a number of benefits:

- Gain Knowledge About Current Standards: You will learn how interoperability works in hospitals, governments, communities and how it relates to you and your career!
- Expand Your Professional Network: You will get to network and interact with a team of health care experts. There are many planned as well as impromptu opportunities to meet leaders from a variety of specialties, so be prepared to share your story.
- Receive A HIMSS12 badge*: The badge gives you full access to the exhibit hall.

What does a HIMSS volunteer do?

- Act as a guide for crowds of people who want to learn more about interoperability.
- Assist in coordinating tours and move the Showcase visitors from the opening presentation through the demonstration.
- Help answer questions or guide participants to someone who can.
- Ensure that visitors enjoy the experience and leave the Showcase ready to learn more.
- Attend training on Monday February 20th from 10am to 3pm. (Lunch provided)
- Be available to work 2 ½ day shifts between Tuesday February 21st and Thursday February 23rd.

Interested in Volunteering? Take the Next Step Today!

Please complete this short [Volunteer Contact Survey](#). We will contact you shortly with more info.

If you have additional questions please contact Philip Depalo or Chad Hiner, Interoperability Showcase Volunteer Committee Co-Chairs at phil@phildepalo.com and chiner@u.washington.edu with the words **HIMSS12 SHOWCASE VOLUNTEER** in the message line. For more details about the showcase visit <http://www.himssconference.org/exhibition/interop.aspx>
